

As CO-VID -19 continues to impact our communities and the world, here at Williams Chiropractic and Wellness, PLLC wanted to take this moment and share the changes we have implemented to support our patients and staff during these uncertain times. We must stay encouraged and use universal precautions along with common sense to strengthen ourselves and our community.

The well- being and safety of our patients and staff remain as top priority. We are monitoring the updates provided by our government and health departments.

We asked each and everyone of you to continue to take your vitamins and keep your immune system nice and strong; in addition to washing your hands and covering your mouth. If you are feeling ill please stay at home and contact your local provider for instructions.

We value our patients and staff here and we would appreciate your assistance as changes are made throughout this time. We have modified our work schedule to accommodate the patients as well as the staff to assist with all the chaos around. We will be open daily Monday- Friday starting at 8:30 am and closing daily at 3pm Monday- Thursday and on Friday at noon.

Thank you for your patronage, stay safe, and be encouraged we will get through this.
